About Me

I am a passionate and dedicated IT professional with 7 years of experience in web development, server management, front-end development, and UI/UX design. I enjoy creating responsive, user-friendly websites and ensuring smooth server operations to deliver reliable digital solutions. I also have a good understanding of digital marketing concepts, which helps me develop websites that support business growth and online visibility. Seeking opportunities to contribute my expertise to active projects and collaborate with cross-functional teams.
